

Complete professional and fully managed energy procurement solution for enterprises

AECO Energy Portfolio lets you be the specialist in your business while we:

- 1 Optimise your business energy costs by accessing volume-based pricing
- 2 Reduce your price risks by having our energy experts strategically procure your contracts
- 3 Boost your business productivity by letting you focus on your business while we manage your energy needs

Maximise your business potential while minimising cost, time and risks by joining AECO Energy Portfolio

Aggregated volume-based buying power

- Join other businesses to create a large-scale-electricity portfolio.
- Increase the appeal of your business energy needs to the retailers.
- Intensify the competition of retailers bidding to win your portfolio.
- Enjoy competitive pricing through economies of scale.

Expert-led market monitoring and strategic procurement

- Allocate your time and resources effectively with our zero-touch management solution.
- Focus on your core operations while our experts monitor the market and strategically procure your energy needs.
- Enjoy peace of mind that your future energy needs are expertly procured and managed.
- Stay regularly informed on your portfolio activities and market insights.

Flexible and scalable mandates

- Choose from a range of mandates to suit your business needs.
- Maintain control using your chosen mandate for the start date and the length of your contracts.
- Adjust your mandate as your business circumstances change.
- Give special instructions for better fit to your business needs.

**Become liberated to focus on your
business' success!**

About AECO Energy Australia

AECO Energy is a markets and technology solutions company transforming the way enterprise energy is procured. We deliver customer-centric market platforms and professionally managed energy portfolios. We help businesses seize energy market opportunities, mitigate risks and be in control of the way they manage their energy costs and usage.

Your business success is our success.

AECO Energy provides over 13 years of open markets expertise supported by professionals globally equipped with technical market buying expertise and insights. We are a member of the AECO Pacific Group.
